

Five Seals Protect Internal Components

3/4 - 6 Ton
Made in USA

MA and MAL Ratchet Lever Hoists

COFFING MA and MAL Models - Survive the toughest environments to provide safe, secure load control. Five seals (exclusive to the MA and MAL) increase the life of the hoist by protecting the gears and the brake mechanism from contamination by oil, grease, dirt, water, and other environmental hazards. The MA and MAL are ideal for construction, industrial, and maintenance applications which require a brake for precise positioning or to disengage the tension on the load.

- **CAPACITIES & LIFT** - Rated loads from 3/4 to 6 Tons, with 5-foot standard lift. Other lifts available.
- **RUGGED** - Unit and handle made from high strength ductile aluminum alloy for corrosion resistance and portability.
- **FREE CHAINING MECHANISM** - Allows quick and easy one-handed take-up and positioning of slack chain. Will not accidentally free chain when under load.
- **FIVE SEALS** - Keep the brake mechanism clean and dry, so braking performance remains consistent even under severe exposure conditions.
- **LOAD LIMITER (MAL Models)**
- **PRECISE LOAD POSITIONING** - Screw and disc brake lowering allows “micro-inching” for load spotting within fractions of an inch.
- **HANDLE STOPS** - Keep handle from spinning in case operator’s hand accidentally slips off the handle.
- **TOP SLING MODELS** - Allow secure fastening around posts, beams, and other anchor points for easy rigging. MAR model has 30” sling with grab hook.
- **OPTIONS** - Bullard hooks, bronze hooks, zinc-plated hooks, and zinc-plated chain - contact us.
- **LIFETIME WARRANTY**

* Designate MAL model number for load limiter option. Designate MAR for 30" top sling with grab hook. Longer slings available.

† Minimum increment in lowering position is infinitesimal.

†† Add approximately 2 Lbs. for MAL version.
